SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the County of Washoe. The State of Nevada sends to O. J. Backus, Esq., who is hereby required to appear in an action commenced against you as defendant by T. J. Truman and J. Osgood Hooker, partners, doing business as Truman, Hooker & Co., as plaintiff in the District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service) if served in said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you on account of the prayer of said complaint. The said action is brought to recover the possession of certain goods and personal property, to-wit: 4 wagons No. 47, size 2 1/2, weight 700 lbs., 3 wagons No. 48, size 2 1/2, weight 536 pounds, 2 wagons No. 44 1/2, size 2 1/2, weight 500 pounds, 2 wagons No. 44 1/2, size 2 1/2, weight 800, 4 wagons No. 45, size 2 1/2, weight 900, 3 wagons No. 47B, size 2 1/2, weight 900, 2 wagons No. 48B, size 2 1/2, weight 900, 2 wagons No. 49B, size 2 1/2, weight 900, one wagon No. 47B, size 2 1/2, weight 900, one wagon No. 49, size 2 1/2, weight 900, and 8 California rock beds, and in case possession of said goods and personal property cannot be had then for the value thereof, to-wit: \$1,700 all of which will more fully appear from the complaint which is on file in the office of the Clerk of said court at Reno, and to which you are especially referred.

And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded. In testimony whereof, I, T. J. Truman, Clerk of the District Court of the State of Nevada, in and for Washoe County, this 19th day of July, A. D. 1890.

T. J. TRUMAN,

ALIEN OWNERSHIP OF MINES.

Congressman Carter, of Montana, made a speech a few days ago in favor of amending our laws so that alien would not be debarred from securing ownership of mineral lands in the territories. He argued that there was a distinct difference between the ownership of agricultural lands and the ownership of mines. In this he was certainly correct. When foreign capitalists or any other capitalists, for that matter, are secure large tracts of land, they shut out American families from opportunities to found independent homes; but when capital is turned into mining development, employment is furnished to a multitude of men at rates of wages which enable them to live in comfort and properly educate their children. It is right and proper to preserve the land of the country from foreign ownership so that American citizens can found homes upon it, but mineral land comes under a different class of rules.

A tract of mineral land is practically good for nothing unless a valuable mine is found beneath its surface, and the opening and working of the mine is, in all respects, so far as the questions at issue in this discussion are touched, like the operation of a factory. Nobody owns where the money comes from that founds a factory, nor how much of it may be launched in the enterprise. The important fact to the community is that an industrial establishment has been founded which will furnish employment for workers and add to the aggregate of public wealth.

If we had sufficient American capital available to open all the mines says the Aspen Times, in all the States and Territories there might be some reason for opposing the advent of capital from abroad. But the time will never come, at least not for many generations, when it will not be of great benefit to the United States to receive an influx of foreign wealth. The resources of the country have scarcely been touched and the important problem now is to get them developed. Every factory established and every mine opened increases the wage earning and wealth producing power of the nation, while every dollar brought from foreign shores and put into such enterprises is so much added to the grand aggregate of the Nation's wealth.

It may be argued that it is a disadvantage to have the profits of such enterprises carried away from the country. To some extent this is true, but the benefits secured far more than over balance this contra side of the account. But it is also true that foreigners who make money in American enterprises will re-invest their profits in the country where they have met with such success, and since the opportunities for such re-investment are practically without limit, it is altogether probable that for a long course of years, in addition to securing the original capital, we will, in one way or another, retain the major part of its increment.

SUDDENLY STUPID.

New York bankers have lately been interviewed on the subject of the new silver coinage law and its effects on trade and commerce. Very many of these financiers of the financial center of America, says the Grass Valley Telegraph, are declaring that it is yet too early to predict the effects of the silver law. But just before that not became a law these financiers were ready enough and quick enough with their predictions, and they said that dire ruin and misery would pervade the land and that prosperity would forever keep her face away from America and only smile on those nations that had the single gold standard for money. And now, when their bad results, as predicted, do not take place those eminent financiers are hesitating as to further predictions. It is curious to see how wise men get stupid all at once. This is perhaps because the wise men were not so really wise. And with other things besides the silver law, it has often been shown that statesmen and experts can see just about as far ahead, as to the effects of a measure, as can common people. Theories of the best construction are often overthrown by the simplest kind of facts.

United States Minister to Guatemala, Mizner was shot at on the 23d inst. by a daughter of General Barrundia, who was killed in the cabin of the American vessel Acapulco at San Jose de Guatemala last week, while resisting arrest by the Guatemalan authorities. A book which this Minister held in front of him received the bullet and doubtless saved his life. The woman accused our Minister with being the cause of her father's death, by ordering the captain of the Acapulco to deliver the fugitive General up to the Guatemalan government.

To unfamiliar ears "single tax" may sound better than "free trade," but it is really the old enemy under a new name. Reading between the lines of the report of Henry George's reception in New York and the meeting of the Single Tax Convention, it appears to be a Democratic movement in so thin a disguise that it will hardly deceive any intelligent and interested reader.

Either there has been previously a greater difference of opinion on Wall street regarding the silver question than has been generally supposed or a conversation has taken place there. Some of the most prominent financiers now say that the new silver legislation is likely to prove a good thing. Perhaps some of them are wise after the fact and endorse what they cannot help.

CONSOLIDATION OF COUNTIES.

As the Reno Journal remarks, the consolidation of counties is not a measure for any Constitutional Convention to decide. We have written to this effect, we believe, and stated that it was only Legislative action that can make the change.—Lyon County Times.

If a Constitutional Convention should be called and a new Constitution adopted in which the boundaries of the several counties of the State of Nevada should be fixed, the consolidation of counties would be a measure for a Constitutional Convention to decide, provided, the instrument should be ratified by the people at the polls, the Journal and Times to the contrary notwithstanding.—Elko Independent.

The Journal has never asserted that it would not be in the power of a Constitutional Convention to form a Constitution in which the fixing of the county boundaries might be included. It has said, however, and it still maintains, that such matters are properly the work of our State Legislature and that they would be out of place in a Constitutional Convention. There is, moreover, as little likelihood of a Nevada Convention proposing such a thing as that it will name a Governor who shall hold the office for life, and that the person named will be the editor of the Elko Independent.

It is a very good suggestion thrown out by the Boise Statesman that the proprietorship and management of the great Shoshone Falls, Idaho, should pass into the hands of the general government, where this magnificent spectacle could be cared for as in the Yellowstone National Park in the State of Wyoming. Something should certainly be done in this direction, and Idaho herself has all the burdens, at present, that she is capable of bearing up under. The remarkable group of wonders at and around Shoshone Falls should not be left to the desecration and vandalism which will certainly follow without governmental control of some kind.

The Ogden Democrat has been reduced from a seven to a five-column paper. There is great improvement, however, in its make-up, and having dispensed with its plate matter it gives its readers the same amount of crisp editorial and local as well as telegraphic news as before its reduction.

General John Gibbon has succeeded General Miles as commanding officer of the Pacific Division of the United States army. The change was ordered at army headquarters on Monday.

Dashed to Death.

Saturday's Times-Review says: Louis Zenola, underground carman at the North Commonwealth, attempted to board a cage which had been rung up, and was precipitated from the 100-foot level station to the bottom of the shaft, a distance of 125 feet, dashing his brains out and killing him instantly. Deceased leaves a wife and one or two children.

Only a Mirage.

A Nevada cattleman relates that near Trout Creek he saw a band of cattle apparently plunging toward him. He got within a half a mile of the band he discovered it was a mirage.

ELECTRIC TREE CUTTER.

A Suggestion to the Timber and Lumber Men on the Sierra.

In the great forests of Galicia electricity is employed in felling trees. The method and application is thus described in the Electric Review:

"The tool used for comparatively soft woods is a form of auger which is moved to and fro, and revolved at the same time by a small electric motor. The tool and motor are mounted on a carriage which turns on a vertical axis secured by an arm to the trunk of the tree. The auger or blade describes an arc, making a deep cut in the trunk, operating much in the same manner as a mortising machine. The tool is gradually advanced after each half turn around the trunk, thus deepening the cut until it reaches about half the diameter of the tree; wedges are then inserted to prevent the rift from closing up, and the other side of the trunk is operated upon until the tree is nearly cut through. The job is then finished off with an axe or a hand saw. In this manner the work of felling trees is accomplished with great rapidity and a very small amount of labor."

Not Settled Yet.

The Truckee Republican says: "The Republican stated last Wednesday that the Railroad Company had agreed to grant the demand of the trainmen for an increase in wages. This report was premature and was taken from a San Francisco paper. The fact is, there is a hitch in the proceedings, the Railroad Company seeking to gain time. The officials do not seem willing to acknowledge the authority of the Brotherhood to bind its members, and desire that all of the trainmen be represented. The Company officials say that they are willing to make concessions, but propose to make the concessions to their employees as individuals and not as members of brotherhoods. This is liable to cause trouble, for if the brotherhoods are not to be recognized as such they might as well be disbanded. We believe that the Federation will fight in order to maintain the integrity of the order."

Footrace Squabble in Court.

The case of Farlong vs. the Bullion & Exchange Bank, in which plaintiff seeks to recover the \$500 forfeited to Dr. Reed in the Dobbins-Rosenthal footrace agreement, says the Carson Tribune, was submitted this morning to Judge Wells, who promises to render a decision inside a week. Very able and ingenious arguments were made in the case by Messrs. Woodburn and Torreyson for plaintiff and P. M. Bowley, Jr., for the Bank, or rather Dr. Reed, who is really the party in interest, he having given the Bank an indemnity bond on forfeiture of the money.

A New Mining District.

New mines have been discovered about 28 miles from Wadsworth, near Winnemucca lake, which is on the line between Humboldt county and Washoe. The discoverers are Andy Russell and Charles Washeim, of Wadsworth, and with Messrs. Crosby and Backlund, of that place, they have located several claims. One of the ledges is said to be eight feet wide, and some specimens of the ore assay \$180 to the ton in silver. Engineer Hampton brought some samples of the ore here, which old miners say are rich.

W. W. Bishop's Will.

The will of W. W. Bishop, in years past well known in the legal and political history of the Comstock, recently deceased in San Francisco, was filed in the Probate Court in that city on Tuesday. Deceased left an estate valued at about \$9,500, consisting of a residence on Broderick street, near Walter, and an interest in the law firm of Bishop & Watt. It is bequeathed to his widow, Isabella H. Bishop, who is also named as executrix.

Bar silver, 1.8%.

"O. K. let me see what you give for a cold on the chest?" asked Jones, a sort of indifferent tone, of a doctor with whom he was slightly acquainted, as he met him on the street. "Advice," was the laconic reply. "So do we. We advise you not to neglect that hacking cough and drowsy feeling, the coated tongue, the falling appetite, the loss of energy and general languor and debility that is fast coming upon you, as so many express it. Take Dr. Pierce's Golden Medical Discovery, in time, and it will not disappoint you. It is not only a powerful purgative, but it cleanses the blood, known to medical science, but also possesses superior nutritive and tonic or strength-giving properties. It improves digestion and builds up both flesh and strength when, from any cause, they are reduced below a healthy standard. For Bronchitis, Throat and Lung Diseases, accompanied with Hacking Coughs, the 'Golden Medical Discovery' is absolutely unequalled as a remedy. For Weak Lung, Consumptive Night-sweats, and kindred affections, it surpasses all other medicines. It's the only thing really sold by druggists guaranteed to benefit or cure, in every case, or money refunded."

\$500 OFFERED for an incurable case of Catarrh in the Head, by the proprietors of Dr. Sage's Catarrh Remedy. By its mild, soothing and healing properties, it cures the worst cases, no matter how long standing. Only 50 cents. Sold by druggists everywhere.

Bob Lindsay Gone.

That well-known, genial citizen, able lawyer and sincere friend, called Bob by all who knew him, says the Carson Tribune, has left Nevada for the new State of Washington, and will practice his profession at the city of Seattle in connection with ex-Judge Sam D. King. Mr. Lindsay is a self-made man in the common acceptance of the term, but nature did very much for him in enabling him to make use of the early education he received and after sowing the wild oats of early life fitting himself to become a useful as well as ornamental member of the State of his adoption. A natural musician, orator and actor has gone to the new, progressive State and the Tribune feels certain that he will be not only well received at the coming metropolis of the Northwest but that his talents as a lawyer will insure him success.

F. & A. M.

There will be a called convocation of Reno Lodge, No. 13, F. & A. M., held at Masonic Hall, Reno, Nevada, on Saturday, Sept. 6, at 1 o'clock sharp, for the purpose of attending the funeral of our late brother, Jas. W. Poor. All sojourning brethren in good standing are respectfully invited to attend. By order of the W. M.

B. M. JAMISON, Secretary.

The Storey Delegation.

Last night, says the Enterprise, the Storey delegation met in caucus and decided to vote as a unit upon the offices of District Judge, Clerk of the Supreme Court, State Treasurer and State Printer. The candidates who get the benefit of this are Rising, Josephs, Egan and Eckley.

A gentleman who came down from Virginia last night says there is very little likelihood of the State Convention making any nominations to-day. Many of the delegates were in Virginia yesterday, and the general feeling among them was that after meeting, effecting a temporary organization and appointing committees, the convention should adjourn until Friday.

NEW TO-DAY.

Surveyor General Turritt went up to Virginia yesterday.

Paint your house with the best mixed paints. Sold by Lange & Schmitt.

L. A. Blakeslee came in from Winnemucca yesterday and went on to Virginia.

State Senator John Torre of Eureka came in yesterday and went on to Virginia.

General R. P. Keating came down from Virginia last night and went on to San Francisco.

Mrs. C. N. Noteware passed through here yesterday on her way home to Carson from California.

Go to Lange & Schmitt for garden hose, garden tools, and agate ware. Largest stock in the city.

Mrs. Clara Belle McDonald came down from Carson Tuesday night and left on No. 3 yesterday for the East.

Dr. F. H. Jessup, of Elko, is prostrated from a paralytic stroke, and is considered in a dangerous condition.

J. A. Blossom, of Battle Mountain, arrived here yesterday and left by private conveyance for the Comstock.

Hon. F. G. Newlands, Hon. Thos. Fitch and nearly the entire corps of Reno delegates to the Republican State Convention left here yesterday for Virginia City.

The report of the condition of the Bank of Nevada will be found in this issue. The figures under the several headings indicate a wholesome financial condition of the institution.

The Miller-Norris combination had good houses yesterday afternoon and evening. It is a good exhibit on bill into one, and each the best of its kind that was ever upon the road.

Silver State. J. R. Bradley, of Elko, whose many friends would like to have the opportunity to vote for him for the position to which his revered father was twice elected, is in town.

W. H. Tower, a pioneer of Anstin, came over from San Francisco on Tuesday's No. 3 and remained over to take in the sights of the Riverside city. He will leave for home this morning.

Persons desiring space in the Pavilion are requested to apply at once, as the building is fast filling up. The Pavilion promises to be one of the grand features of the State Fair this year.

The dance to be given by Co. C next Friday evening will be largely attended, as it is the first party of the season. The best of music has been engaged, and everybody can depend on having a glorious time.

D. B. Williams and Lee Parsons, of Tuscarora, and C. E. Sprinkle and E. S. Farrington, of Elko, delegates to the Republican State Convention, arrived here yesterday morning and took the V. & T. train for Carson.

Carson Appeal: George Balfour, for so many years gardener at the U. S. Mint in this city, and latterly in charge of the grass plot of the Government building, died yesterday at the county poor farm.

Carson Tribune: Dick Allen having tendered his resignation as assistant operator at the V. & T. office in this city, Mr. Arthur Roycroft has left Wells, Fargo & Co.'s employ and accepted the position vacated by Allen.

The delegates to the Democratic State Convention at Reno will be allowed to ride at half fare on the Central Pacific railroad. That is, they will pay full fare coming and receive a free ticket to return. The convention meets here a week from to-day.

The Journal to-morrow morning will probably give the names of the nominees of the Republican State Convention, which, of course, means a list of the State officers who will serve for the four years succeeding the first Monday in next January.

The choicest meats that are produced in the State are the only kinds placed on the blocks of the Reno and Truckee markets, which under the ownership of W. S. Bailey and the superintendency of Mr. Stewart are deservedly doing a land office business. See the new ad. in this issue.

Everywhere in this issue will be noticed the list of the races filled for the ensuing State Fair. It is the best racing programme that has ever been presented in the State, both in regard to the number of entries and the speed quality of the stock. A glance at the list will convince any turfman that this is a fact.

The appointment of Judge Hawley to the vacant U. S. Judge-ship is favorably commented upon by all of the papers Democratic as well as Republican, in the State. It would have been impossible for President Harrison to have made a better appointment or one that would have given more general satisfaction to the people of Nevada.

The Riverside has been pressed into road service yesterday and with a four horse attachment it left here about noon with a full complement of passengers for Virginia City. Among them were Wm. Thompson, W. B. Chamberlain, George W. Baker, Dick Ryland, W. D. Phillips, Allen C. Bragg, C. H. Markham, Dr. Lewis, A. J. Hodgkinson and 439 in the steerage.

A BIG WATER SUIT.

The Case of Bliss vs. Dunphy et al.

The case of Bliss vs. Dunphy et al, says the Silver State, came up for trial before Judge Fitzgerald in the District Court this morning. The suit is brought under the old law to abate a nuisance, and every water claimant on the Humboldt above the C. S. ranch is made a defendant. Much of the legal talent of the State is engaged in the suit, and there are several lawyers from San Francisco. The principal attorneys for plaintiff are Messrs. McKim & Phelan of San Francisco and Judge Bonifield of this place. Dunphy and Grayson, two of the principal defendants, are represented by General R. M. Clarke of Carson and Judge Meredith of San Francisco. J. H. McMillan, M. S. Bonifield, J. F. Dennis, Webster Dorsey and perhaps other lawyers are engaged in the case. J. B. Olsen and Mrs. Jennie Fisher are the stenographers, the former for plaintiff and the latter for defendants. Over one hundred witnesses have been subpoenaed, and the trial is liable to occupy the time of the court for several weeks.

Judge Thomas P. Hawley.

Grass Valley (Cal.) Telegraph: Thomas P. Hawley of Carson, Nevada, has been nominated by President Harrison as a United States District Judge to fill the vacancy caused by the death of Judge Sabin. Thomas P. Hawley formerly resided in Nevada City, where he was Deputy County Clerk under J. H. Boswick from 1854 to 1859. In the latter year he ran for County Clerk on the Whig ticket, and was defeated by Rufus Shoemaker. Hawley then took to the law, and has made a success in the profession. He has been for a long time a Justice of the Supreme Court of the State of Nevada. The senior of the Telegraph has always been proud of Tom Hawley's success. That political licking given to Hawley in 1859 made a big man of him; it stirred up his energies. Judge Hawley will accept the United States Judgeship.

A Sheepish Export.

About a year ago, says the Eureka Sentinel, Joe Molino picked up a lamb on the flat near Adams bill. It had one of its legs broken, and Joe put the limb in splints and nursed the little animal and christened him "Bill." Bill follows Joe like a dog, goes through the mines with him and climbs up and down and in and out of the bolines, raises and winzes, wherever the openings are not steep enough to require ladders. Bill, in fact, is quite an expert (in climbing) and pushes himself to the front every time. If Joe is at the face of a drift, Bill rushes past any and all other comers, taking his position alongside of his benefactor, butting furiously whenever his passage is obstructed. Bill never follows or associates with any other sheep, but is the pet of Molino's hospitable cabin.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-29-f-y

Get a Move On.

Isn't it about time that Nevada was making a move towards insuring some sort of a showing at the World's Fair at Chicago? This is the only State that has not taken some steps in that direction, while there is no State in the Union that cannot better afford to be unrepresented by its products, nor any that has more to gain by making a respectable showing. Something should be done without delay or else the appointments of our Commissioners should be rescinded, for it will be a ridiculous farce to send representatives to Chicago with nothing to exhibit except their own persons, as evidence of the resources of their State.

Justice Court.

John Doe, from Susanville, was fined \$6 for driving over the Virginia street bridge at a pace exceeding the limit of the law.

Charles Cameron, a recent arrival from the east, and of an age exceeding the three score years and ten allotment, let the booze racket get the best of him, but His Honor, in consideration of his years and sincere repentance, permitted him to depart upon his own recognizance.

Orchard Insect Pests.

Some of the orchards in the upper portion of Carson valley are troubled with obnoxious insects which mar the fruit and injure the trees. Some leaves covered with the vile pests have been sent to the U. S. Experiment Station connected with the State University at Reno, with the hope of obtaining information that may be of value to fruit growers.

Mining Sale.

On Wednesday, says the Elko Free Press, S. G. Weston completed the sale of an interest in the Copper King mine, at Lone Mountain, to Eastern capitalists, and the money was passed over to his credit at the bank. This mine is one of the best in Elko county, and now that capital has been secured to develop it, will soon speak for itself.

WHAT IS

SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can IT BE CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CANTLE, Naughton, N. J.
